EDUCATION

Chulalongkorn university

Bachelor of Engineering Program in Computer Engineering and Digital Technology

Bangkok , Thailand

Expected graduation: 2029

Related Coursework: Computer Programming; Data Structures and Algorithms;

Programming Methodology I*; Database Systems*; Software Engineering*; Software Development Practice I–II*

*Taken in Year 1 Semester 2

Demonstration school of Khonkean university (Mo Din Daeng)

Khonkaen , Thailand

Science Classrooms in University-Affiliated School Project (SCiUS)

Graduated in 2025

RELEVANT EXPERIENCE

Introduction to CEDT project (Full-stack website)

2025

- Engineered a full-stack web application for the CEDT project, building a dynamic UI with HTML/CSS/JS and developing a robust RESTful API using Node.js and MongoDB.

Participant – GenAI Hackathon Powered by MITR PHOL (YES Talent Camp 2025)

2025

- Developed a business strategy and project plan for a Gen AI solution, advancing the team to the Top 36 round of the competition.

Participant – Thailand Cyber Top Talent 2024

October 12, 2024

Organized by National Cyber Security Agency & Huawei Technologies (Thailand) Co., Ltd.

- Achieved a national ranking of 117/770 (Individual) and 90/283 (Team) in a series of cybersecurity and problem-solving challenges.

Participant – Web Programming Competition 2024

August 19, 2024

2nd Computing Fair 2024, College of Computing, Khon Kaen University

- Secured 2nd Place by developing and deploying a full-stack web application using HTML, CSS, JavaScript, and an Apache server.

First Place – SATIT Hackathon: Innovation for Equitable Education

July-August, 2024

9th Academic Demonstration, Satit Chulalongkorn School & Faculty of Education, Chulalongkorn University

- Won 1st Place by developing and pitching an innovative solution concept designed to provide equitable access to educational resources.

Gold Medal, Computer and Technology Project

April 25–29, 2024

SCiUS Forum 14th, Thammasat University, Rangsit

- Achieved Gold Medal for a project predicting KDML 105 rice moisture content; analyzed data with SPSS to build a regression model and deployed it on a web application (HTML, CSS, JS) that predicts moisture based on density.

Honorable Mention – Web Page Creation Competition

February 10, 2023

Computer Education KKU Open House 2022, Faculty of Education, Khon Kaen University

- Received Honorable Mention for a web page demonstrating proficiency in UI design, content creation, and web development tools.

August 17, 2022

Participant – High School Level Computer Programming Competition

College of Computing, Khon Kaen University

- Practiced programming challenges, focused on algorithmic thinking, coding, and problem-solving.

April-May 2022

Computer Science Olympiad (Thailand) – Camp 2

- Developed advanced algorithms and data structures skills using C++, applying problem-solving, algorithm design, programming proficiency, and efficiency in competitive programming.

VOLUNTEER & EXTRACURRICULAR EXPERIENCE

Merchandise Designer – COM Sampan 2025

2025

Faculty of Engineering , Chulalongkorn University

- Designed staff shirts for the COM Sapan 2025 event, applying skills in graphic design and creative thinking.

ROTC Guide Project – Host

2024

23rd Military Circle Student Training Center

- Hosted a project for the 23rd Military Cadet Student Training Center, demonstrating abilities in public speaking, creative thinking, and video editing.

Live Stream & AV Control – Fundraising Busking Project

September , 2024

Ban Mo Community School, Nong Khai & Khon Kaen Walking Street

- Managed live streaming and AV systems for hybrid fundraising events, applying technical problem-solving skills.

SKILLS

Technical Skills: C,C++, Python, HTML, CSS, JavaScript, MongoDB

Computer Tools: Canva , Figma , VScode , GitHub

Languages: Thai (Native), English (CU-TEP 62/120), Chinese (Beginner/Amateur)
